

Hamupēke Snacks

Make a Humpback whale
by recycling a toilet roll!

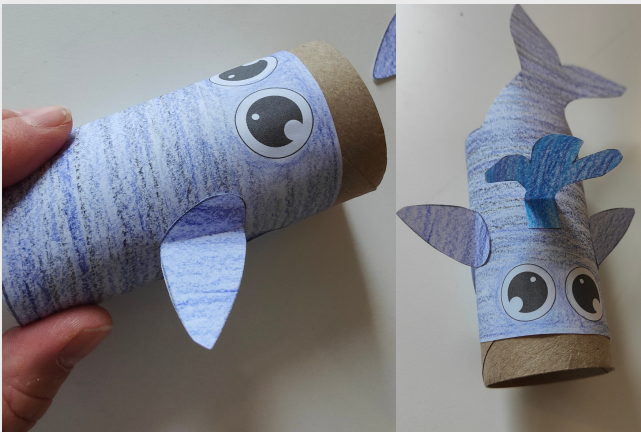

1. Colour in all of your whale parts and snacks, then cut them all out.

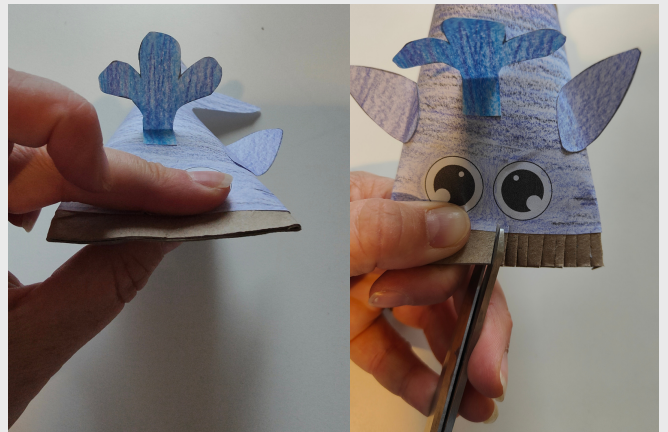

2. Tape or glue the body section around the toilet paper roll making sure you leaving an small exposed section at the front.

3. Tape or glue the fins to the side and the 'whale blow' on top of your whale.

4. Squeeze the mouth of your whale shut and cut little strips to create the baleen. Only cut to the edge of the whale.

5. Now push/bend your baleen plates inside of the whale's mouth.

6. Now your whale is ready to eat! Give the back half a wee squeeze to help it gulp up its food!
